## Circuit Breakers, Motor Control, and Automation

Circuit protection, including molded case circuit breakers (MCCB's), low voltage air circuit breakers (ACB's), and medium voltage vacuum circuit breakers (VCB's). UL891 and UL1558 applications, including available UL Assembler Program. Accessories include shunt trips, motor operators, electronic overloads for new applications and for retrofit of competing equipment. <https://www.ls-electric.com/>

Myung Youn Electronics Co., Ltd., produces energy-saving transmission motors and torque motors as well as the DPS Digital Phase Converter, allowing for running of three phase motors from single phase power. <http://myungyoun.com/eng/>

## TRANSFORMERS

One and three phase pad-mount, substation, pole-mount, low and medium voltage dry type, cast coil, pad-mounted switchgear, and metal-enclosed switchgear. Contact Electritek for details.

Koino manufacturers Push buttons, indicating lights, square lights, stack lights, selector switches, cam switches, hoist control, motor control switches, sensors, limit switches, relays, counters/timers, PID controllers, non-intrusive level control, terminal blocks, and din rails. <http://koino.com/main/main.php>

RMEX provides AC variable frequency drives (VFD's), including both constant and variable torque and fan and pump applications. Solar DC input VFD's, reduced voltage solid state starters, motor monitoring, and aurora motors. <https://rmexpertsinc.com/>

## Enclosures and Lighting

Bel Products specialize in the production of stock and custom-made enclosures, offering a wide range of colors, heating/ventilation, hardware and accessories. <https://www.produitsbel.com/en/>

Electro-Matic Visual is a turnkey LED Lighting solutions provider with a diverse portfolio of solutions for a wide range of projects from simple one-off applications to nationwide program rollouts. <https://visual.electro-matic.com/>

## UPS, Battery Systems, and Power Conditioning

Xtreme Power manufactures UPS, power distribution units, and portable cooling products for a global network of OEMs and distributors. <https://www.xpcc.com/>

Adel System offers more than 250 models of industrial power supply, DC-UPS, and battery chargers designed to meet the requirements of all applications in fields of industrial automation. <https://www.adelsystem.com/en/>

SENS provides integrated power systems, battery chargers, and battery monitoring solutions that minimize the risk of critical system downtime at the lowest total cost. Products include industrial battery chargers, DC power systems, lead selenium batteries, valve regulated lead acid batteries, nickel cadmium batteries, flooded lead acid batteries, racks, chargers/inverters. <https://www.sens-usa.com/>

ELMEASURE helps manage energy with intelligent energy and process management solutions. Products include energy and power monitors, source changeover switches, protection and control devices, process measurements, industrial communication and network gateways, current transformers, low voltage switchgear, and energy management solutions. <https://www.elmeasure.com/>

## Safety Products

Meg-Alert manufactures patented electrical insulation testing and protection systems designed to detect the first signs of insulation breakdown in critical equipment operating up to 15 KV. <https://www.megalert.com/>

I-Gard provides an advanced line of ground fault, arc flash, and neutral grounding resistors to protect equipment. <https://i-gard.com/>
