

Circuit Breakers, Motor Control, and Automation

Circuit protection from MCCB's to LV ACB's and MV VCB's. Applications vary from Integrators, OEM's for UL891, UL1558 applications. Accessories to include shunt trips, Motor operators, electronic OL's, etc. for new applications and retrofit of competitors equipment.

<http://megalert.com>

MegAlert - The only automatic permanently installed "True Dielectric" Insulation Resistance Testers and Monitors with 500-5000 VDC test outputs.

MegAlert manufactures the MotorGuard and GenGuard patented testing and protection systems designed to detect insulation breakdown in critical motors and generators. The system senses when the motor or generator is offline and then performs a continuous dielectric test on the winding insulation until the equipment is started again.

i -AVT

Maintenance free Absence of Voltage Tester UL 1436

The i-AVT provides the following indications:

- Positive indication of presence of voltage from 3V-600VAC
- Positive indication of absence of voltage
- Positive indication of loss of phase
